

Product information

TELESCOPIC SECURED STEP LADDER FOR BUNGALOW ACCESS

EXCLUSIVITY L'ECHELLE EUROPEENNE

DESCRIPTION

Allows secure access for users for backup access (construction bungalows, tippers, tanks, pre-slabs, etc.).

Front exit on the arrival area and secured assistance during the descent thanks to its retractable handrails.

Millimetric adjustment of the stick length via a non-detachable clamping system.

Quick height adjustment by locking in the step.

10 year warranty.

TECHNICAL PART

- 500 mm wide step position
- 48 mm deep rungs (110 mm in overlapping) - 25 cm spacing
- Access ramps on both sides
- Retractable legs on 1 metre integrated in the ramps
- Anti-slip pads
- Equipped as standard with 2 suspension hooks (60 mm diameter)
